

Jenkins CI/CD Web Deployment Assignment Report

Automating Web Application Deployment using Jenkins, GitHub, and AWS EC2

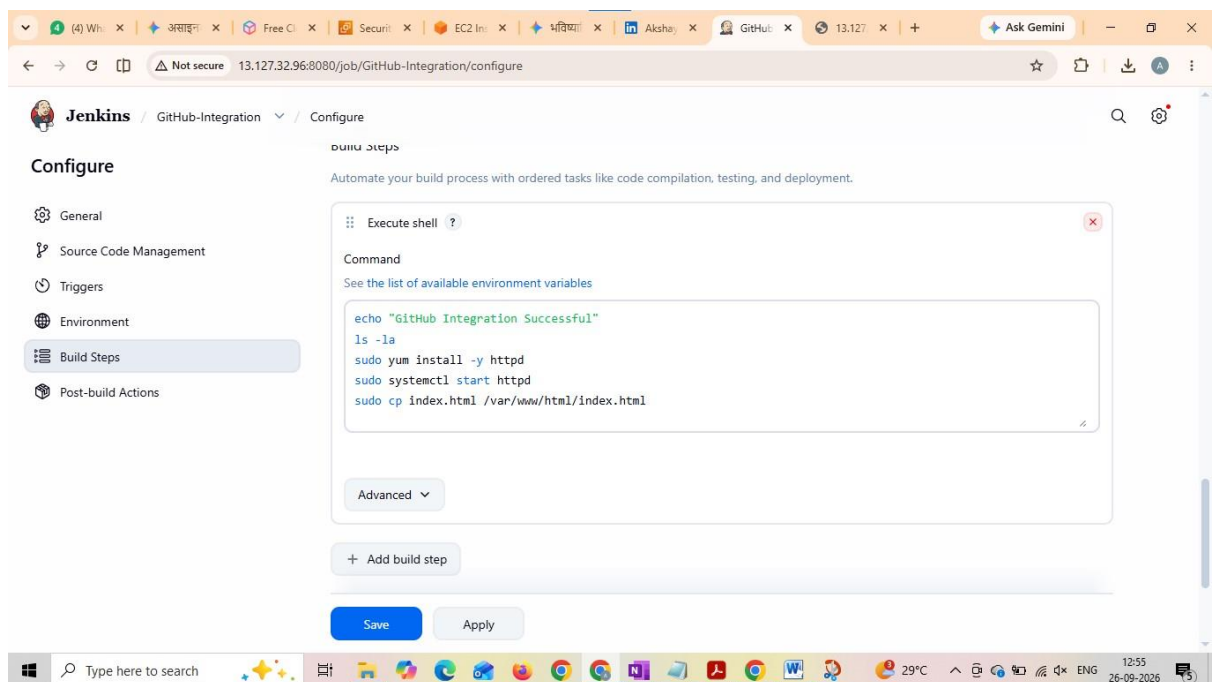

- **Student Name:** Akshay More
- **GitHub Repository:** <https://github.com/Akshaymore2193/velocity-app.git>
- **Live Web URL:** <http://13.127.32.96>

Jenkins Pipeline Configuration

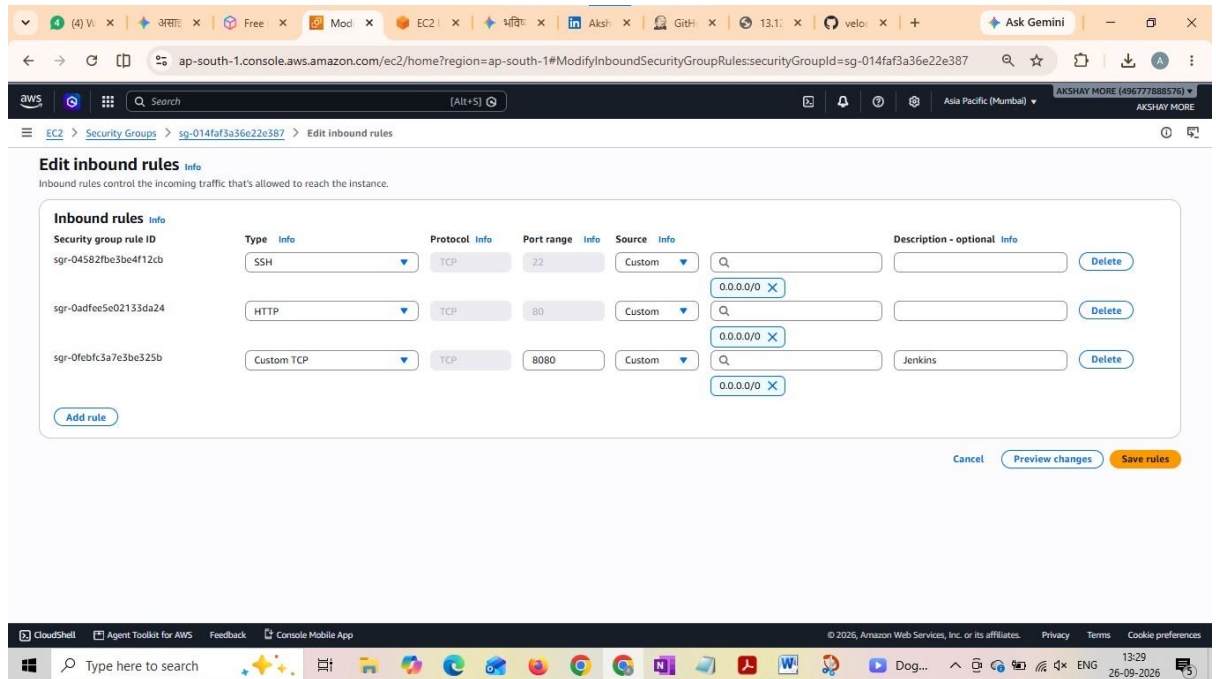

Build Steps and Shell Script Execution

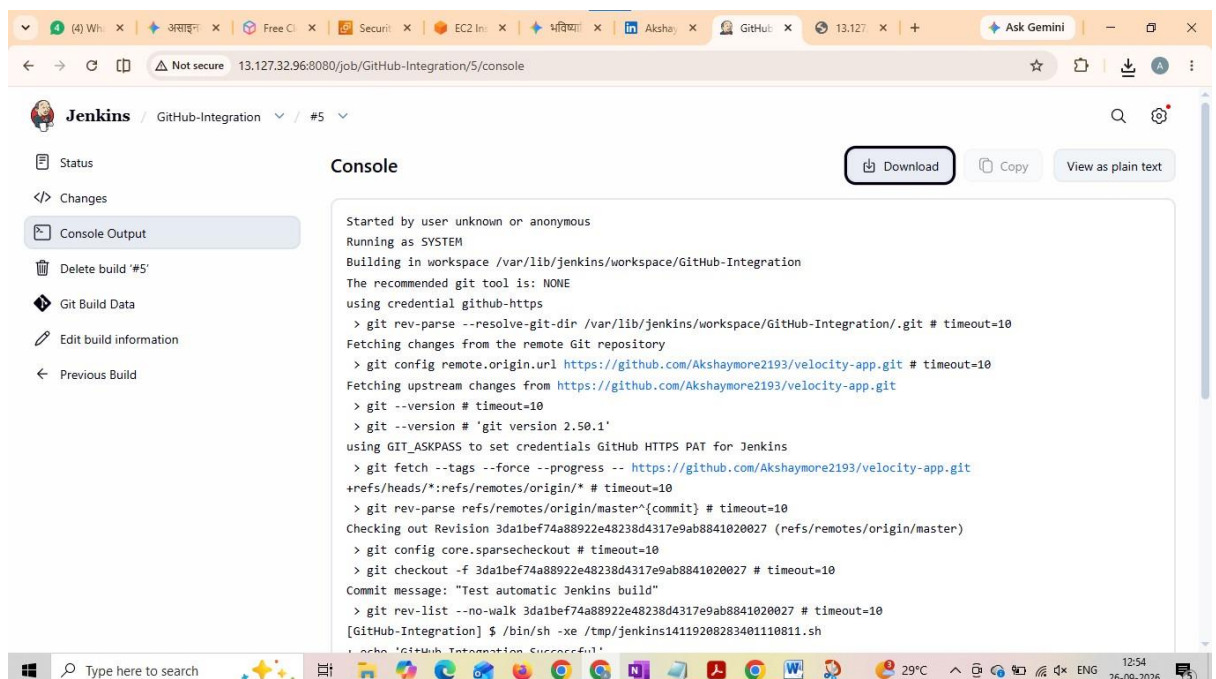

AWS EC2 Security Group Configuration

AWS EC2 Security Group Configuration

Description: Updated the AWS Security Group inbound rules to open Port 80 (HTTP) for all traffic (0.0.0.0/0), enabling public internet access to the web server.

Jenkins Build Console Output

Web Application Verification
